NO. 28

DARK TOBACCO ORGANIZATION GAINING VERY RAPIDLY

Big Drive For Signers Scheduled For Latter Part of July in Many Counties.

Hopkinsville, Ky., July 11.—Judging from the interest already shown throughout the dark tobacco district, the concerted drive for members to the Dark Tobacco Growers Co-Operative Association, which is to be put on in twenty or more counties the latter part of this month, each county will be very active at that time and big results are expected.

Organization Director, Joseph Passonneau, has his hands full looking after the arrangements for this big effort. His presence is being asked in nearly all the counties before the drive actually begins, but it will be impossible for him to reach them all. However, in nearly all of them a live organization has been formed and these will see to it that the drive is properly put on.

Right now, Mr. Passonneau is working on his list of speakers for the speaking campaign which will immediately precede the real drive. Several of the foremost men in the state, some of them public officials and others prominent in business and the professions, will aid in explaining to the growers the Sapiro plan of organization and the benefits that will come to them through the association.

The exact date for the actual drive for signatures has not yet been settled, and this will be done at a meeting of the district organization committee to be held here at an early date.

But these details are not being permitted to hold back the work in the several counties. In each one the local committees are carrying on the campaign vigorously. In those counties where the sign-up has already been begun, they are not waiting for the big drive but are continuing their efforts according to the plans first made. All of these will be expected to participate in the big drive, even though they may have secured the required minimum of two-thirds of the tobacco acreage; in such event they will make a big effort to carry the total to 80 per cent or better.

In Montgomery county Tennessee, Chairman Claude Coke, has announced that the acreage pledged now totals more than 10,000. In Christian county the total is above 9,000 acres. In Davless county several thousand acres have been pledged, fully 1,000 acres being pledged the past week. Todd county has more than 80 per cent pledged. Trigg, Graves, Calloway, McCracken, Henderson, Hopkins, Logan and other counties have substantial acreage already signed up.

In several of the precincts in the counties where the sign-up has been begun, ninety per cent or better of the acreage has already been pledged. In one precinct in Davless county where the sign-up is said to be about 99 per cent the soliciting committee has refused to turn in the signed contracts they have secured until they make it 100 per cent. Equally as good reports can be made for precincts in nearly every county where any systematic work has been done.

With this as a starter, and an evidence of the sentiment of the people, the workers will tackle the big drive with high enthusiasm and full confidence that success will crown their efforts, not to the minimum extent of the two-thirds, but to seventy-five per cent or better.

Davless County Farmers Signing Owensboro, Ky., July 11.—Much interest has been manifested in the county during the past week in the tobacco pool as outlined by the different speakers in the field, and during the week about 1,000 acres were signed for the pool. The speaking campaign will continue in the county until July 20, when the big drive will begin in earnest for acreage for the pool.

Besides the engagement of Con-

gressman J. Campbell Cantrill, Saturday, July 15, at the courthouse, Judge I. H. Thurman of Springfield, has promised two speaking engagements in the county the week of July 10.

In the fifteen districts covered now, seventy-five per cent to ninety per cent sent has been signed, and in some instances some of the districts are 100 per cent for the pool. In one district one chairman has 99 per cent of his tobacco acreage pooled and refuses to forward contracts until he gets the 100 per cent.

Record Broken in Burley District Lexington, Ky., July 10.—All previous records were broken for the signing of new contracts by the Burley Tobacco Growers Co-operative Association the past week, since the close of the sign-up campaign last November 15, when it was announced Saturday that 925 contracts had been received, representing about 2,000 acres of tobacco. These included 294 signed last week in West Virginia and eastern Ohio, but do not include those signed this week in that territory, which probably will be in excess of the number signed the previous week. Twenty contracts signed in Madison county the previous week also are included.

FOUNDLING LEFT AT DOOR CAUSES STIR IN NELSON

New Haven, Ky., July 6.—Nelson County officers today were seeking a solution to the mystery surrounding the leaving of a few weeks' old baby girl on the doorstep of the home of Mrs. Butler Pottinger. Investigation today brought out the fact that a strange woman alighted from the 7 o'clock train from Louisville and hurriedly went to an automobile in which two men were waiting. The automobile then departed in the direction of the Pottinger home but no one saw the child placed at the door. The Pottinger residence is about three miles east of this city, near Gethsemane. No papers or marks of identification were left with the child.

VETERAN FILER DROPS TO DEATH

Detroit, July 6.—Captain George C. Tinsley, of the army aviation corps, an overseas veteran, was killed at Selfridge Field, Mt. Clemens, near here, late today, when his plane crashed to the ground from a height of 150 feet and burst in flames.

Witnesses said Captain Tinsley had turned sharply when the motor went dead and the plane dropped, bursting into flames as it hit the ground. Captain Tinsley had been badly burned, and there was a hole in his chest, that apparently had been made by a sharp piece of wreckage.

Physicians expressed the opinion that he had been instantly killed or rendered unconscious by the fall and suffocation. Captain Tinsley was 26 years old.

HENDERSON YOUTH IS DROWNED IN RIVER

Henderson, Ky., July 6.—Odio Sutton, 14, was drowned in the Ohio river here late today when he got into deep water while in swimming. The boy could not swim, it is said, he went under when he walked in to a deep hole. The boy had been warned at noon today, by his mother, not to go into the river.

MAN KILLED AT COVINGTON

Covington, Ky., July 6.—Richard Brearton, 54, formerly a member of the Covington fire department, was killed today when the automobile in which he was riding dashed over a fifty-foot embankment near Goebel Park.

Mrs. Carrie Williams and sister, Miss Dora Gibson, of Shreveport, La., arrived Saturday to be the guests of Judge and Mrs. J. S. Glenn at their hospitable home on Walnut Street. Mrs. Williams and Miss Gibson will remain in Ohio County the remainder of the month, visiting numerous relatives and friends. Their visit to the scenes of their childhood will be indeed a pleasure to their many local friends.

L. & N. R. COMPANY GUARD- ING BRIDGES AND SHOPS

Owensboro, July 9.—The L. and N. Railroad company is placing guards about its property at many points throughout this section, as a precautionary measure, it is said. The men have been employed by W. L. Mills local freight agent on orders from the officials of the line.

Charlie Dawson, Thomas Hardy, Frank Nalley, Mitch Thoraherry and Paul Wathen were yesterday morning sent to Livermore to serve as guards there and it is stated that Mr. Mills has already sent about ten Owensboro men to Russellville.

The L. and N. maintains shops at Russellville, where about seventy-five men were employed. These men are now out on strike, but they have not manifested any lawless intention, according to the company, but are simply out on order of their union.

It is, however, deemed advisable to picket the more important property, particularly as the miners who are striking in other fields are watching the great activity on the Owensboro and Russellville division with great interest. With both union miners and union shopmen out on strike, the company decided to employ guards to care for its property.

SERIES OF ACCIDENTS AT MT. STERLING, KY.

Mt. Sterling, Ky., July 6.—Four persons were injured here today in a series of accidents in which a cow, a can of grease, a mowing machine and a pot of boiling water were the outstanding figures.

Mrs. Lawless Gatewood fell while running to her son, who screamed when frightened at a cow, and broke a small bone in her leg. Her son, Jimmy, in running, turned over a can of hot grease and suffered severe burns.

James Monroe Chase, a prominent farmer, was thrown under a mowing machine when his team ran away and three ribs were broken. His arm was bruised and he received serious cuts from the knives of the machine. He will recover.

Mrs. William C. Moore turned over a pot of boiling water and suffered serious burns on both feet.

U. S. AND CANADA WILL DISCUSS VITAL ISSUES

Washington, July 10.—Premier King, of Canada and Secretary Hughes will confer in Washington, the conference which was arranged on the initiative of Premier King, taking in a number of questions of mutual interest to the two countries.

Officials at the State Department declined to enumerate the topics to be discussed between the two officials, but it was considered "that among them probably would be the Great Lakes—St. Lawrence Waterway project, which has been the subject of correspondence between the Governments of Canada and the United States, the tariff legislation now pending in Congress, customs questions; prohibition enforcement and possibly reciprocity, which recently has been revived on the other side of the American border.

YOUNG LADY INJURED WHEN THROWN FROM HER HORSE

Miss Louise Mitchell, daughter of Mr. and Mrs. J. B. Mitchell, of near Dundee, was painfully injured Thursday afternoon when thrown from a horse. She was crossing the Dundee bridge, when the horse, which she was riding, became frightened and threw her. Her face and shoulder were badly bruised and she was unconscious for a while. She was taken to the home of her sister, Mrs. Columbus C. King, and Mr. King, but has returned home and is rapidly improving.

MEDLOCK WINNER OF OWENSBORO EVENT

Owensboro, July 4.—More than 8,000 people saw Virgil H. Medlock of Salem, Ind., win the fifty mile automobile race at the Owensboro Fair Grounds here this afternoon. Clyde Sneddon of Louisville finished second and Lam Mulligan of Owensboro third. Omer Blanford, of

Owensboro was leading the race on the twentieth lap when he crashed through the fence due to the breaking of the steering gear of his car. He was not injured. J. C. Hood, Louisville, was forced out of the race early on account of engine trouble. Wallace Kriminger, New Albany, Ind., and Harry Milton, of Owensboro, suffered accidents and were forced to retire. Neither was injured. The car owned by C. F. Peffer, of Louisville, was damaged en route to Owensboro and did not start in the race.

CIRCUIT COURT CON- TINUES BUSY SESSION

The second week of the regular July term of the Ohio Circuit Court is well under way, a large amount of business both civil and criminal having already been disposed of. Forty-three indictments have been returned by the grand jury classified as follows: Murder, 1; illegal sale of liquor, 2; carrying concealed deadly weapon, 3; fornication, 4; illegal manufacture of liquor, 2; unlawful possession of still, 1; assault and battery, 1; deserting wife, 1; malicious shooting, 1; adultery, 2; drunkenness, 2; malicious cutting, 1; drunkenness and disorderly conduct, transporting liquor, 1; unlawful assembly.

Other criminal business disposed of follows: Com'th. vs. Paul Balz, Ira Daniel, Clyde Wallace and Byron Heilin, disturbing public worship, fined \$10 each; Com'th. vs. Herman Park, assault, dismissed; Com'th. vs. Herman Park, assault, verdict of jury for 1 cent and costs; Com'th. vs. Wyman Patterson, intoxicated on public highway, fined \$15 and costs; Com'th. vs. J. W. Wilson, flourishing weapon, dismissed; Com'th. vs. A. C. Jones, obstructing highway, failed to answer and fined \$25; Com'th. vs. Dallas Wright and Sherman Ashby, breach of peace, fined \$10 each; Com'th. vs. Otis Beasley, appropriating property unlawfully, verdict of jury, not guilty.

The following civil cases were disposed of as indicated: Brenard Mufg. Co. vs. Ohio County Drug Co., verdict for plaintiff in sum of \$100; Walter Campbell vs. C. P. Turner and B. J. Milton, judgment for plaintiff in sum of \$1,162.80; M. M. Smith vs. Joyce-Watkins Co., judgment for plaintiff in sum of \$425; A. A. Sheffield vs. T. H. Tatum, verdict for plaintiff.

FORD WANTS TO LEASE COAL LINE

Detroit, Mich., July 6.—Henry Ford has offered to lease that part of the Louisville & Nashville Railroad extending between Banner Fork and Corbin, Ky., and from Corbin to Cincinnati, and operate it with the present force of railway employees. "In order that coal may be moved to Detroit," it became known Mr. Ford made the offer to the president of the Louisville & Nashville after the railroad company had informed him it was unable to move 8,000 cars of coal consigned to Detroit industries because of labor troubles.

The Banner Fork branch is the coal carrying division of the railroad. Mr. Ford's offer included the taking over of the railroad's equipment on his branch under the proposed lease.

Mapother Is Silent

Willie L. Mapother, president of the Louisville & Nashville Railroad, refused to comment on the report of the Ford offer for the line between Banner Fork and Corbin.

He said he would not have a statement to make in the future.

It was learned from other high officials that there is no possibility of the Ford interests obtaining a lease on the branch, which is a valuable feeder to the L. & N. lines.

Local friends of Major Douglas Felix, of Washington, D. C., have received announcement of his resignation as special attorney in the Income Tax Division of the Internal Revenue Department and his resumption of the general practice of law in the capital city. He will continue to give special attention to income tax business. We wish and predict for him a continuance of his success.

The Hartford Herald, \$1.50 the year

HARTFORD'S SLUGGERS COME INTO THEIR OWN

Hartford's teams all came back with a bang in the week-end games. At Island Saturday afternoon the local sluggers outclassed the Islanders at every turn, hitting their mound artist unmercifully. G. Crowe led the locals in hits driving out two singles and a double. Baird made a nice running catch in left field robbing one of their stars of a dandy hit. In fact the Riversiders were all on the job and hitting well. The battery for Island was composed of S. Bates, O. Bates and Obinger, while Owens and Glenn performed for Hartford. The final score was Hartford, 8; Island, 3.

In Sunday's game at Beaver Dam Hartford won a hard-fought bout from the Beaverites the score being 3 to 1. Beaver Dam's battery was composed of Stevens and Mulhall while Hartford was represented by Rogers and Glenn. The feature of the game was the batting of John Taylor. Early in the game he brought in the first score and in the fifth frame he knocked the old pill over the center fielder's head bringing in two scores, thus winning the game. Altogether the Riversiders won 7 hits off of Stevens while Rogers for the locals held the Beaverites to 4. The pitching of Rogers deserves special mention.

This was the fourth game between these two teams and leaves them tied, 2 and 2. Really they have played five games but in one rain interrupted before sufficient innings had been played to count it as a game. However, the Hartford team had a considerable lead. The next will be a hot-one.

Hartford second team won from Horton Sunday afternoon at the latter place by a score of 15 to 11. Balze and Shultz were on the job for Hartford with Balze and Bozarth laboring for the Horton nine. The feature of the game was a triple play by Balze of Hartford in the 9th inning. He caught a fly and by good head work put out three. Horton had just won from Broadway Sunday morning by 10 to 2.

Horton ball team crossed bats with Broadway team on the Simmons diamond, Sunday, July 9th. Scores 10 to 2 in favor of Horton. Battery for Horton, Monroe and Bozarth; for Broadway, Parrot and Phelps, of McHenry. The peculiar feature of the game was that Cleve Balze, one of Horton's first nine, played with Broadway, crossing the plate twice, making Broadway's only two scores.

Beaver Dam and Logansport crossed bats at Beaver Dam, Sunday, the latter winning by the close score of 8 to 7. Clisel and Mulhall was Beaver Dam's battery while Barnes was on the mound for Logansport.

Rockport defeated Morgantown on the latter's diamond, Sunday. The score was 6 to 2.

Hartford colored nine took the scalps of their Livermore colored brethren in a hard fought battle, Sunday. The card showing Hartford, 6; Livermore, 4.

Rockport will engage Hartford on the local diamond, next Sunday.

Rob Roy will come over Saturday afternoon to cross bats with the locals.

Hartford second will play Moor-man at the latter place, next Sunday.

Sunday, July 23, Hartford second will engage Rosine at the latter town.

YOUNG WOMAN DIES FROM FOUR-FOOT FALL

Louisville, Ky., July 6.—Miss Allie Yarn, 20, died today of a fractured skull suffered when she fell from the porch of her home Wednesday evening. The drop was four feet. She became suddenly ill while standing close to the edge of the porch, Coroner Roy L. Carter reported. Her head struck a concrete pavement.

TROOPS READY FOR ACTION IN HOPKINS COUNTY

Area is Quiet As 60 Guardsmen With Machine Guns Keep Watch On Mine.

Sunlight Mine, Madisonville, Ky., July 5.—All is in readiness here for the attack which is expected to follow adged threats made late Thursday by a mob of 300 union members and sympathizers.

The mine, which covers 500 acres and has an output of 18,000 tons monthly, resembles an army camp. Armed with rifles and pistols, State troops from Hopkinsville and Livermore, under command of Major C. H. Smith of Bowling Green, are guarding every vantage point. Four machine guns, each with two attendants, stand on the peaks of four of the highest hills near the steam shovels and tipples.

Presence of the troops already has had the desired effect, it is believed, and Madisonville is praising County Judge C. C. Givens, at whose request the soldiers were sent, and Lonnie Jackson, president of the Union Miners in the district who has cautioned the miners against violence.

"I don't expect trouble now that the troops are here," Judge Givens said today. "But they were needed. It would have been another Herrin. I did not request troops because of information received at the mine alone. I had other information from some conservative union men. Troops were needed immediately."

Went to Mine in Body

Mr. Jackson said the calling of the troops was "premature." He investigated the reported threats from every angle, and today he said: "I learned that the union men had a mass meeting Thursday night, after which they went to the mine in a body. They sought to show the strip miners the advantage of organization. They failed. As they were leaving, one or two of the younger men shouted that they were coming back. These threats did not meet with the approval of the leaders or a large majority of the men.

"There would not have been any trouble, in my opinion. But you can never tell about a thing like that. I can appreciate the feelings of the residents of Madisonville. Union men from other fields were soliciting aid in this district, and the presence of strangers was responsible for the report that some of the Herrin miners were here.

No Trouble Seen

"I can understand how Madisonville felt about that, but I can say for certain, after talking with all union leaders in Madisonville, that there will be no trouble. They have promised me that they will not resort to violence and they said they had not intended to."

Mr. Jackson's optimism is not shared by the 100 strip miners in Sunlight; they fear an attack tonight and all are armed. It is the belief that any possible trouble will occur after the troops are called away, as the situation is one that will not be relieved.

1,250,000 IDLE BECAUSE OF STRIKES

Washington, July 6.—More than 1,250,000 workers are idle in the United States because of strikes, officials of the Department of Labor estimated today.

Four strikes of major importance are in progress. They are: Coal miners, 400,000 bituminous and 200,000 anthracite.

Railroad shopmen, 400,000.

Textile workers, New England, 80,000.

Garment workers, New York City, from 10,000 to 20,000.

Officials said it was impossible to calculate the amount of money lost to workers and to industry because of the strikes.

DR. RAGLAND RE-ELECTED

Georgetown, Ky., July 6.—Re-election was announced today of Dr. George H. Ragland, of Georgetown as president of the Kentucky Baptist Assembly, in session here.

FARM EXTRACTS

INFORMATION FROM THE EXPERIMENT STATION—AGRICULTURAL PAPERS AND THE COUNTY AGENT'S OFFICE

Kentucky Produces Good Seed Potatoes

Kentucky's second crop of potatoes, which usually is planted from the middle to the latter part of July, produces seed spuds equal in every way to those which can be obtained from other sources, according to A. J. Olney, potato specialist of the College of Agriculture. On the other hand, it seldom is practicable to hold tubers from the first crop for seed. Use of a seed plot and a few special practices has been found to be a good method of producing vigorous foundation stock for future crops, he added.

"The object of such a seed plot is to produce and maintain a high yielding variety of potatoes. The principal cause of deterioration or 'running out' of varieties is a disease known as mosaic or curly dwarf, which causes the young plants to appear dwarfed, the leaves to curl downward and be much twisted and to have an uneven yellow and green color. Such plants produce small, worthless tubers. If plants are attacked later, the new leaves may show the mosaic or irregular green color but the plants may produce fairly normal tubers. The disease is carried from year to year in potatoes produced from diseased plants. It is spread from plant to plant by aphids or plant lice and the apple leaf hopper. Strains of potatoes badly affected with the mosaic cannot give high yields and it also is difficult to obtain seed entirely free from it.

"In eradication of the disease by means of the seed plot, the potatoes are gone over as soon as they are well above the ground and all plants removed which are stunted in any way or show signs of mosaic. The plants are gone over about twice again before planting time and all badly diseased or mosaic plants destroyed. The plot is gone over again at flowering time and all plants removed which show a different flower color than that of the variety being grown, these being mixtures.

"After the plot has been gone over for the last time, the plants which appear especially strong and vigorous are marked, the best tubers in these hills being selected at digging time as seed for the next year's seed plot and the remainder kept for planting the early field crop."

Low Wool Production Emphasizes Need For Culling Sheep Flock

Five pounds of low grade wool represents the annual production of the average sheep in Kentucky, according to L. J. Horlacher, in charge of the sheep work at the College of Agriculture. In addition to this, many animals can be found in practically every flock in the State that furnish strong evidence for the need of culling the flock at this time of the year, he said.

"An average annual production of five pounds of wool for each sheep in the State means that many animals are producing as low as two pounds. Every flock has its light shearing sheep while animals that are of poor mutton type, uncertain breeders or unsound in some respect occur frequently even in the best flocks. Frequently, caked udders result from lack of attention at weaning time with the result that the ewe is of no further value as a breeder.

"Additional importance is attached to culling the flock in that ewes begin to lose their teeth at around seven or eight years of age. Such animals require more care and attention if they are to be profitable and usually should be eliminated.

"The most desirable breeding ewes are well grown and rugged with straight body lines and plenty of capacity for feed. They are feminine in appearance, sound in their mouths and udders and are covered with dense heavy fleeces of fine quality. The most desirable ewes are from one to four years old. Care should be taken to cull out all males so that the flock will be as nearly uniform as possible in size and breeding qualities. Such a flock will produce a more even bunch of lambs and eventually increase the profits which its owner realizes."

Farm And Home News From Over Kentucky

Larue county farmers are showing a lively interest in the possibilities of improving their soils by means of limestone. County Agent

J. W. Jones says. Interested persons in the Tonteville section have made arrangements to have a total of 700 tons of limestone rock crushed while farmers in other sections of the county also are giving increased attention to the use of lime. One hundred of the 700 tons was contracted for after the crusher began work.

Many of the 300 Kentucky farm boys and girls who attended the recent second annual "Junior Week" held at the College of Agriculture at Lexington experienced their first real thrill in making the trip and taking part in the festivities of the week. Daviess county sent one girl and two boys to the event who had never ridden on a train previous to their trip to Lexington. Another girl from the same county had never ridden more than ten miles on a steam line before.

Daviess county farm boys and girls who are members of the New-man Junior Agricultural club have launched a campaign to beautify the lawns in their district, according to County Agent J. E. McClure. Prizes will be offered for the lawns which show the greatest and most economical improvement by next June.

Cream grading methods are being presented to Calloway county farmers in order to help them reduce the losses which they suffer each year from poor quality cream. County Agent J. B. Gardner says. Interested persons in the vicinity of the Murray cream station recently were addressed by J. O. Barkman, dairy specialist from the College of Agriculture at Lexington, who pointed out in his talk on grading that Kentucky farmers last year lost more than \$50,000 on cream that went to market in poor condition.

Turning Under Stubble Retards Hessian Flies

Little damage evidently has been done to Kentucky wheat during the past season by the Hessian fly, no cases of serious injury having been reported to the Kentucky Agricultural Experiment Station, according to Harrison Garman, the station entomologist. However, this is no assurance that the fly will not damage grain sown this fall, he said, and it is being suggested that farmers plow their wheat stubble land as a first precaution.

"All land which contains fly infested stubble should be plowed to a depth of five or six inches in July or August so that the fragile flies cannot get to the surface. If the stubble is badly infested the safest way to get rid of the flies is to turn off the field. Flies from the stubble emerge in September and place their eggs on any volunteer or other wheat in the vicinity. Late planting and the use of fields that are known to be free from the flies are precautions that can be used later in the season.

"The flaxseed stage of the flies, which appears as a smooth, shining, red-brown, seed-like object is left in the stubble when the wheat is cut. It remains in this condition until the latter part of July when some adults come out, most of them, however, remaining idle until August and September when they emerge in some numbers about the time the new crop of wheat comes up. The eggs soon are placed on the upper side of the wheat blades after which the flies die. The minute grubs which hatch creep down the blades to where these join the stems and crowd in behind them next the stems. They rasp the delicate tissues of the plant until these are weakened and in many cases kill both the stems and the blade.

"The insects are known to pass the winter in the flaxseed stage and to produce a spring brood which becomes the flaxseed stage before wheat is harvested. This spring brood is difficult to destroy when in an active state, hence deep summer plowing and late fall sowing constitute the chief means of the farmer in controlling the fly."

Annual Hen Culling To Be Started Soon

Within the next few weeks, thousands of farmers and poultrymen in practically every section of the State will turn to the annual fall culling of their poultry flocks in order to eliminate low producing hens and bring about a more economical production of eggs, poultry specialists

at the College of Agriculture say. Culling usually can be started as early as the middle of July, this being the time of the year when the first hens stop laying and go into a molt.

All hens that stop laying at this season of the year are not poor layers, the poultrymen say, a number of causes being responsible for hens going into a molt. Among these are sickness, improper feeding, broodiness and lice and mites. However, if the flock has been properly cared for and fed a laying ration containing some animal protein, such as tankage or buttermilk, and some hens stop laying to molt there can be no doubt that these are low producers.

Heavy layers produce eggs throughout the summer and molt late, in October or November, after which they grow their new feathers rapidly while low producing hens stop laying early in the summer and grow their new feathers slowly during July and August. As a rule, they do not start laying until the following spring.

In culling the flock, the length of time that the hen has been laying can be determined by the renewal of feathers. The body feathers are shed first, the tail feathers next and then those of the wing. Color changes due to heavy laying take place in the vent, beak and shanks of yellow skin breeds. The different parts of the body tend to bleach and become white as the stored fat in the body is used for egg production. The vent changes quickly with egg production so that the white or pink vent means that the bird is laying.

What To Put In Tee Lunch Basket For School Children

Combinations similar to those below, which are suggested by the United States Department of Agriculture, will be found excellent for the school lunch basket. Many others equally good will suggest themselves.

Sandwiches with sliced tender meat for filling; baked apple; cookies or a few lumps of sugar.

Slices of meat loaf or bean loaf; sandwiches; stewed fruit; small frosted cake.

Crisp rolls, hollowed out and filled with hopped meat or fish, moistened and seasoned, or mixed with salad dressing; orange, apple, a mixture of sliced fruits, or berries; cake.

Lettuce or celery sandwiches; eucustard; jelly sandwiches.

Cottage-cheese sandwiches, or a pot of cream cheese with bread-and-butter sandwiches; peanut sandwiches; fruit; cake.

Hard-boiled eggs; baking-powder biscuits; celery or radishes; brown sugar or maple-sugar sandwiches.

Bottle of milk; thin cornbread and butter; dates; apple.

Raisin or nut bread with butter; cheese; orange; maple sugar.

Baked-bean and lettuce sandwiches; apple sauce; sweet chocolate.

Weather Bureau Helps Bankers

Evidence of the connection between banking and weather was afforded recently when a Federal Reserve Bank in a middle western city sent to the Weather Bureau, of the United States Department of Agriculture for climatological reports on certain sections in another State. The bank is interested in the effect of local weather on crops. It can afford to lend money if the rainfall is satisfactory and other conditions make the prospects bright for a good yield. A dry season means poor returns and an unsafe risk for the bank. One of the jobs of the Weather Bureau is to furnish accurate information of this kind.

The manufacture of peanut oil has been stimulated a great deal in recent years because of the ravages of the cotton boll weevil in reducing cotton growing in certain sections. Peanuts are grown in place of cotton. Before 1914 very little of the oil was made, only 450,000 pounds being produced in 1912, but by 1918 the quantity turned out by crushers in this country was about 50,000,000 pounds. At the same time imports increased from 7,600,000 to 27,400,000 pounds.

Children will often eat more bread if different kinds are served, especially for the basket lunch at school or the hot school lunch, says the United States Department of Agriculture. Sometimes so simple a change as baking the bread in a new form—a twist, for example, instead of a loaf—or cutting bread and butter in a fancy shape with a cookie cutter will increase a child's relish for it. So, too, will a change of flavor, obtained by adding a few raisins, dried currants, or nut meats.

The Hartford Herald, \$1.50 the year

CAPITOL CULLINGS

The Business Man's Party

Washington, July 8.—The Republican party has lost sympathetic contact with the business interests of the country. The demand for the disproportionate and haphazard scheme proposed by Mr. McCumber comes from himself and other Senators who expect to reap desirable political benefits, and not from the business interests of the country.—Louis Seibold, National political correspondent, New York Herald.

The foregoing statement by Mr. Louis Seibold, one of the group of famous and sound political writers who report and comment upon national affairs, is worthy of serious and sober consideration of the business men of the country. There is no greater fallacy in politics than that business thrives under a Republican administration to a greater extent than it does under a Democratic administration. The worst thing that can happen to business is a financial or economic panic, and there has been no greater breeder of panics than Republican tariff laws. The great panics of 1873 and 1893 came when Republican tariff bills were the law of the land. The Republican panic in 1921-22 resulting from the economic breakdown of Europe, following the defeat of the peace treaty, was brought on by the Republican policy of opposition and sabotage. It is now proposed to extend and prolong this panic by a tariff law worse than those which were responsible for the preceding great panics.

Practically every big Republican newspaper in the country has opposed and denounced this pending tariff bill. The legitimate business interests of the country are opposed to it. Its effect upon business generally will be disastrous, and yet the reactionary Republican leadership persists in trying to fasten upon the country its policy of commercial isolation and economic absurdities in the interest of a few manufacturers.

The Democratic party, still holding fast to the doctrine of "equal rights to all and special privileges to none," is preeminently the party of honest and legitimate business and the foe of profiteering and predatory interests. Its attitude toward the business interests of the country is definitely set forth in a recent declaration by Cordell Hull, Chairman of the Democratic National Committee. Judge Hull said:

"The Democratic party welcome into its ranks every class of persons and of business which desires only intelligent, equitable and fair treatment at the hands of the government. Democrats have shown by their recent record that they are friendly towards all individuals and legitimate businesses, big and little, so long as they do not seek some special advantages or favors from the government to which they are not entitled. The national democracy is not reactionary, but is keenly alive to existing conditions and to modernized, wholesome remedies for any evil or threatened evil of our material or social affairs. It alone has a clear grasp of all phases of our national life."

The business favored by the Republican party is crooked business, profiteering business, and business seeking special privileges and favor. The business represented by the Democratic party is honest business, seeking no favors and opposing discrimination, asking only equal opportunity. Honest business may be little or it may be big—it matters not how big if it be honest and legitimate.

Is it not time that honest and legitimate business, big and little, separate itself from the Republican party and ally itself with the Democratic party? Is it not time that honest and legitimate business recall to mind the defeat by Republican partisanship of the great reconstruction programme offered by the Wilson administration in 1919 which would have solved practically all of the problems with which business is confronted today?

The correspondent of a great Republican newspaper declares that "the Republican party has lost sympathetic contact with the business interests of the country." Sympathetic interest with honest and legitimate business is ever present in the Democratic party. Is it not time that honest and legitimate business should avail itself to it, thus serving its own interest and the interest of the nation?

Ship Subsidy Questionnaire

It is to be hoped that Republican Congressmen, who have taken a vacation until August 15, when there was plenty of work to keep

them in Washington, will follow the advice of President Harding and try to learn the views of their constituents concerning the Ship Subsidy bill. If they do there will be no Ship Subsidy bill passed by this Congress, and no one will be seriously disappointed except Chairman Lasker, the Shipping Trust and President Harding.

In order to aid the Republican Congressmen in learning the view of their constituents on the Ship Subsidy bill we suggest that they ask them the following questions:

1. Do you wish the Government to turn over to the Shipping Trust \$3,000,000,000 worth of ships, most of them steel, and 75 per cent of their oilburners, the best on the ocean, for \$200,000,000?

2. Do you wish the Government to lend purchasers of these ships, after sustaining a government loss of \$2,800,000,000, \$125,000,000 at 2 per cent, to recondition these ships or to build others?

3. Do you wish the Government to pay a bonus or subsidy to the Shipping Trust of \$750,000,000 in the next ten years to guarantee the new owners against loss in operation, and to pay the money on the conditions which will enable them to pay for the ships out of the subsidy, and thus practically get them for nothing?

4. Do you wish to see the army and navy transport services abolished and the function of carrying troops and munitions, even in time of war, turned over to the Shipping Trust?

5. Do you wish subsidies to be paid under this bill to the Standard Oil Company, the United States Steel Corporation and other large concerns which own and operate their own ships, transporting their own products and which are not required to operate as common carriers?

6. Do you wish the passage of this bill which does not require the Shipping Board to make any report or accounting to the President, the Congress or anybody else at any time?

7. Do you wish the owners of these ships to be exempt from the payment of all Federal taxes providing the amount is set aside for investment in new ship construction at a time when there are many more ships than necessary to carry the amount of commerce?

8. Do you wish this bill passed in the interest of the Shipping Trust which profiteered upon the Government and the people during the war, and now gives no guarantee under this bill of any cheaper ocean freight rates—a bill which does not even pretend to provide for any regulation of such rates?

These are but the principal questions Congressmen may ask their constituents. There are many more they can ask if any of them have taken the trouble to read the bill.

The alternative question is, Would you not rather turn over to a Democratic Congress the task of providing an honest and efficient shipping act, designed for the upbuilding of a permanent merchant marine instead of an act to destroy the one we now have?

The announced retirement of Representative Joseph W. Fordney

Buy this Cigarette and Save Money

(Rep. Mich.), Chairman of the House Ways and Means Committee, and the defeat of Senator Porter J. McCumber (Rep. N. D.), Chairman of the Senate Finance Committee, relegates the joint authors of the Profiteers' Tariff bill now pending in the House, and commonly known as "Fordney's Folly," to private life, where they both belong. It would have been some satisfaction, perhaps, to the average citizen to have had the opportunity to cast a vote against either of them as a repudiation of their infamous bill, but the same results can be had by voting against any Republican Congressional candidate because the re-election of a Republican Congress means a continuation of the same policy which Fordney and McCumber strove to carry out. The way to repudiate the reactionism of Fordney and McCumber is for the voters to repudiate Republican candidates in all districts and states.

The boast of Senator McCormick (Rep. Ill.) that the administration has cut down income taxes would have been more effective in the interest of truth if he had stated that the reduction had been on the incomes from the multi-millionaire profiteering class. The whole truth, however, is in the fact that not only were the income taxes of this class reduced, but also in the manner in which income tax reduction was accomplished. This was done by the simple process in hundreds of thousands of cases by reducing incomes and in many cases by abolishing them altogether.

It may be doubted if President Harding feels flattered when his own press tells him that he is more popular than Congress. A person could have a very unenviable reputation and be very much more popular than the sitting reactionary Republican Congress which is denounced by leading Republican newspapers as "the worst Congress in twenty years."

Senator McCumber's defeat for re-election in the North Dakota Republican primaries was foreseen and discounted by the Democrats. Whether the Republican Senatorial nominee in North Dakota were McCumber or Frazier it simply means a Democratic Senator from that state. The main interest in McCumber's defeat is in the accompanying repudiation of the Harding administration and the Profiteers' tariff bill.

WEDNESDAY, JULY 12, 1922

President Harding has gone to
the country to sound sentiment on
the pending Ship Subsidy Bill. Un-
fortunately, he will not tell certain
facts about the effect of this bill—
he is so intensely for the measure
that he will allow its praises, with
none present to state to the audi-
ence the following truths which the
people are entitled to know:

The bill proposes to turn over to
the shipping trust \$3,000,000,000
worth of five steel ships built by the
Government, the most modern fleet
in the world, most of them oil-
burners. The people of the United
States own these ships. The bill
proposes to sell them to this group
of capitalists for \$200,000,000, or
one-fiftieth of their cost.

The bill also proposes to lend
these men \$125,000,000 to recondi-
tion the ships. If they had been
properly cared for during the Hard-
ing administration this would not
be needed.

The bill provides for the payment
of a subsidy of \$750,000,000 to the
capitalists in the next ten years for
using this great grab of ships for
their own private gain. During
three recent years the Atlantic Gulf
and West Indies Steamship Company
made a clear profit of 100 per cent
on its shipping business without a
subsidy; the published reports of
the company show this, and it is
merely used here as an example be-
cause it is one of the largest of
American companies. During the war
some ships earned their entire cost
in one trip. There is no reason why
any of them should fail to be self-
supporting at any time.

This subsidy will be paid even to
the ships of the Standard Oil Com-
pany and the Steel Corporation for
transporting their own products in
their own ships for their own profit.
Is it any wonder they are all for
Harding? And the passage of this
bill greatly increases the list of call-
ing places for the campaign fund
collectors of the Republican party
when Mr. Harding comes up for re-
election. Is it any wonder, there-
fore, that Warren is for the bill?

Under this bill the army and navy
transports will be abolished—sold
for junk at a great loss—and the
business turned over to the trust,
when we already have the ships,
built and paid for—not only the
transports, but the merchant fleet—
in our own possession. Is there a
business man in the country who
would make such a deal?

The bill does not require any re-
ports to be made to Congress and no
accounting as to earnings of these
ships. Thus the people will never
know how badly the Republican
party sold them out.

The bill exempts the shipping
trust from the payment of all Fed-
eral taxes, providing the amount is
set aside for the building of new
ship, and all the time the party is
claiming that too many ships are al-
ready built for the business being
done, under a Republican adminis-
tration.

The bill makes no provision for
regulation of freight rates on the
water and creates a gigantic combi-
nation which can make rates as high
as it chooses and leave the shippers
helpless. Whether they will make
the rates high can be determined by
harking back to the open robbery of
the war rates.

In the Committee hearings a practi-

cal steamship man admitted that
the wages of our seamen do not
hurt the American steamship in
competition with European vessels.
Their testimony showed that the dif-
ference in these wages does not ex-
ceed two per cent. John C. Seager,
Jr., vice-president of the Seager
Steamship Company, admitted in the
hearings that there is no reason why
American ships cannot compete with
the world under present conditions;
his and other companies are doing
it. The only difficulty he saw was
that some of the American compan-
ies paid very large salaries to un-
necessary executives, some of them
as high as \$100,000 per year, great-
er than that of President Harding.

The bill provides for the Shipping
Board to make subsidy contracts
with the shipping trust covering
periods of ten years—this to pre-
vent an effective repeal of the law,
for its repeal by a new Congress
would not stop the robbery of the
people's treasury. The bill even
fixes it so that this fund is not de-
pendent on each Congress appro-
priating the money annually, as it
is done for all other expenses of the
Government.

The bill confers on the Shipping
Board the most enormous and unre-
stricted powers in regard to selling
ships, making loans and subsidy
contracts and in handling enormous
sums of money. The present mem-
bers of the Board are rushing about
the country making speeches in
favor of the bill at Government ex-
pense.

The bill provides more money in
the form of subsidies, by fifty per
cent., than the total amount paid in
subsidies, bounties and ocean mail
pay by all of the other countries of
the world put together.

President Harding goes to the
country on this measure and says he
is ready to stand or fall with it. It
seems certain that any citizen who
considers these facts, taken from
the minority report on the bill, will
agree that the President who would
support such a steal deserves to fall
with the bill he advocates. The
minority report was signed by Judge
Davis of Tennessee, Rufus Hardy, of
Texas, William H. Bankhead, of
Alabama, Schuyler O. Bland, of Vir-
ginia and Clay Stone Briggs, of
Texas, and is a masterly and patri-
otic effort to defeat the worst steal
ever attempted in the history of the
Government.

WRIGLEY'S ANSWER

William Wrigley, Jr., the chewing
gum magnate, was talking to a lit-
tle party of men in a smoking car
the other day, and telling how much
chicle is used each year for chewing
gum. "But Mr. Wrigley," said one
of his hearers, "you've spent mil-
lions of dollars and created a splen-
did demand; now everybody talks
about and chews Spearmint; your
demand is steadily growing; isn't it
a waste to spend so many thousands
of dollars advertising a product that
is already so well known?"

And Mr. Wrigley, studying a
moment, answered:

"My friend, if I were to stop ad-
vertising, it would be just like tak-
ing the engine off of this train. It
would slow down, and after a little
while it would stop. Advertising is
the locomotive of business and if
you don't keep it up business comes
to a stop."

NORMAL SCHOOL SUCCESSFUL

All reports from the summer nor-
mal school being conducted here
have been favorable. Every student,
whom we have interviewed, as well
as the county school superintendent
say it is a complete success. The
school will close Friday, July 21st.
Large audiences continue to attend
the twilight story hour on Monday
and Thursday evenings.

The students will bring basket
dinners next Friday and enjoy an old-
fashioned "Dinner on the ground."

at 4:00 o'clock p. m. All members
of the society are earnestly request-
ed to be present and as many ladies
of the church as can attend.

Hartford Herald, \$1.50 the Year

STATE TAX COMMISSION
CAUSE OF DELAY IN GET-
TING TAX BOOKS READY

It is the duty of the County Court
Clerk to make out the tax bills and
deliver to the Sheriff by the 1st of
July of each year for collection,
but before this can be done the
State Tax Commission at Frank-
fort must approve the Assessment
of the County as revised by the
County Board of Supervisors which
met in March. The assessment of
the County as listed by the County
Tax Commissioner was \$11,234,-
825, the State Tax Commission as-
ked that this be raised \$1,350,000,
the County protested against such
raise and sent a Committee to
Frankfort to go before the State
Tax Commission, but the State Tax
this he reduced, and it was reduced
to \$500,000, and when the County
Board of Supervisors met they
raised the assessment \$8,000 in ex-
cess of the \$500,000 asked by the
Tax Commission, and the State Tax
Commission has not until this day
approved the work done by the
County Board.

Their excuse was that some 4 or
5 persons in the County had taken
appeals against the Board's action
and could not approve them until
they were tried out in the County
Court, which trials were heard some
time ago and the judgment render-
ed in favor of the Board of Super-
visors, that is, the County Judge de-
cided to let the assessment stand
as fixed by the Board of Super-
visors. This judgment was sent to
the State Tax Commission, and they
still refused to approve the assess-
ment saying that one or two of the
taxpayers had appealed to the Cir-
cuit Court and if the appeals were
granted that it might be necessary
to call the Board of Supervisors to-
gether again to reassess the amount
reduced by the decision of the Cir-
cuit Court.

Now, if these cases that have
been appealed to the Circuit Court
should be granted in full then it
would not reduce the assessment
enough below the required amount
to go to the expense of calling the
Board of Supervisors together
again to add an additional \$40,000
to the County assessment, which
is the reason that the tax books are
not now in the hands of the Sheriff;
they need to be there; the County
certainly needs the money, but just
as long as the State Tax Commis-
sion holds up the approval of the
assessment just that long we will
have to wait for our County revenue.
The books are ready.
GUY RANNEY, C. O. C.

CENTERTOWN BOY GIVES
COLD CHECK IN OWENSBORO

Failing to conclude negotiations
which he believed would place to his
credit in a Centertown bank suffi-
cient funds to meet a check for \$640,
caused John Withrow, 21, to remain
in the Daviess county jail last night
for giving a cold check.

Withrow's father came to the city
this morning and adjusted the mat-
ter to the satisfaction of the Short
Brothers Motor company and the
young man was dismissed, leaving
for home with his father.

The young man came to Owens-
boro yesterday morning and bought
a Chevrolet touring car from the
motor company. In payment he
gave a check for \$640. C. P. Short,
for the company, telephoned to the
bank on which the check was drawn
and was advised there were insuffi-
cient funds to meet it. He then
drove to Centertown in an attempt
to have the check made good, as
young Withrow had gone off with
the car.

Short returned to the city and
swore out a warrant for the arrest
of the young man and he was taken
in charge by Night Chief Jackson
at the garage of Short Bros. He
told the officer and Short he had ex-
pected to complete negotiations
which would have made his check
good, but this had failed to ma-
terialize.

Withrow had been married but a
few days and his wife returned to
her home last night at Centertown
to attempt to make arrangements
whereby her husband would be re-
leased. She was successful.—Ow-
ensboro Inquirer, July 6.

MISS ABBY WHITTINGHILL
MAKES HIGHEST GRADE

Results of the June teachers' ex-
amination have been received from
the state board of examiners by Mrs.
I. S. Mason, county school superin-
tendent. The highest grade was
made by Miss Abby Whittinghill, of
Fordsville. Mr. Herbert Porter, of
Beaver Dam, made second highest.
Of the 22 applicants, ten failed, ten
made second class and two first class
certificates. The examination will
be held at Hartford, July 28th, and
29th.

WILLIAM MUFFETT SUCCUMBS
AT HOME NEAR SUNNYDALE

William Muffett died at his home
about one mile north of Sunnydale,
last Saturday morning of heart fail-
ure. He left the hay field near
Miller bridge, where he was work-
ing, Friday afternoon and went to
the Miller place across the bridge to
obtain a jug of water and on his
return fell and was later found un-
conscious and taken to his home,
where later he became better, and
about 2 a. m. Saturday morning he
told the folks he was so much im-
proved they could leave him. How-
ever, upon their return at 4 a. m.,
they found him in the kitchen dead.
The deceased was one of the coun-
ty's best citizens and had a multi-
tude of friends. He was a farmer
and stock buyer and owned a farm
in the Narrows community
but this season he leased a portion
of the Wilson farm near Sunnydale,
where he resided at the time of his
death. He had been for several
years a member of Pleasant Hill
Baptist Church at Magan and for
some time had been a deacon. He
was only 59 years of age.

His wife preceded him to the
grave about fifteen years ago. Near
relatives surviving are one sister,
Mrs. Mollie Daniel, of Yelvington;
two brothers, Messrs. Hillary and
Lonnie Muffett, of Yelvington; two
daughters, Mrs. Crowe Thomas, of
near Narrows, and Mrs. Vega Tru-
man, of near Sunnydale; six sons,
Messrs. Guy, of Beaver Dam, Roy
and Edgar, of near Narrows, Charlie
of near Hartford, Irving and Byron,
who lived with their father. He
leaves nine grandchildren.

The largest congregation ever
known to attend services at that
church was present at the funeral,
which was preached by Rev. R. E.
Fuqua, at Pleasant Hill Baptist
Church, at 3 p. m. Sunday. The
body was laid to rest in the cemetery
nearby.

In his death the community and
county as well have lost a high
class, useful citizen and the mem-
bers of his family have the deepest
sympathy of a host of friends.

ROSS TOBACCO COMPANY
EMPLOYEES ENJOY OUTING

Owensboro and Hartford buyers
and other employees of the Ross To-
bacco Co., enjoyed the annual out-
ing given them by the company,
from July 4th. to 7th., about one
mile below Hartford on the farm
of Thomas Brothers. Their fishing
efforts were fairly successful and
on Thursday, their cook, Charlie
Showers, (col), a faithful employe
of the company, barbecued a sheep
and a number of chickens and the
picnickers with a few invited guests
partook of a royal feast.

Employees of the company who
were on the trip were as follows:
Messrs. S. B. Lee, Alton Haynes, S.
V. King, Gilbert Lee, B. F. Moor-
man, Casper Sutton, and Willie
Harrison, of Owensboro, and Owen
Lee, of Hartford.

The following were invited guests:
Messrs. Leslie Coombs, Pete Thomas,
Tice Burns, Ernest E. Birkhead, of
Hartford, C. D. Brown, manager of
the Winston Tobacco Co., of Owens-
boro, and Commonwealth's Attorney
Glover Cary, of Calhoun. The out-
ing last year was held near Dundee.

YOU NEVER CAN TELL

CROKER DISINHERITS ALL BUT
HIS WIFE AND DAUGHTER

West Palm Beach, Fla., July 8.—
The will of the late Richard Croker,
the Tammany leader, who died re-
cently in Ireland, filed here today,
leaves all of his property except
10,000 pounds to his wife.
The 10,000 pounds bequest goes
to his daughter, Florence.

Jacksonville, July 8.—J. T. G.
Crawford, of this city, counsel for
Richard Croker, Jr., said today up-
on learning the will of Richard
Croker, Sr., had been filed for prob-
ate at West Palm Beach, that he
recently filed a caveat in Palm
Beach County Court which virtually
is a notice that the will will be con-
tested.

DAVISS COUNTY
LAND FOR SALE

2500 acres farm land near Ow-
ensboro in tracts to suit purchaser.
This is wet land now being drained
and is the richest land in Kentucky.
If you want a tract to develop or
a safe and growing investment, this
is a wonderful opportunity.
Terms one to ten years.
For further particulars address J.
H. HICKMAN, Owensboro, Ky.

21-202, 24-6t

There is a world of comfort and satisfaction for women in a
perfect fitting stocking. Buster Brown Hosiery fits snugly at the
foot and ankle and has plenty of elasticity at the knee. For
Women we offer silk hose from \$0.50 to \$3.50 in gray, nude, polo
brown, black and white in plain and clocked styles. We are hav-
ing quite a demand for Women's imported lisle hose with vertical
lace stripes in all the newest shades. These are most reasonably
priced at 50c per pair.

We especially advise Buster Brown Hosiery for children be-
cause of its remarkable endurance. Among our newest numbers
are the drop stitched and novelty ribbed sock in 3-4 length rang-
ing in prices from 25c to 50c.

If you have never worn Buster Brown Hosiery, then it would
pay you to get acquainted with our line, for once a man has
bought Buster Brown Hosiery, he will accept no other.

JULY MILL-END SALE

Our Mill-End Sale is attracting large crowds of eager buyers who are taking advantage of our unusually low prices. Most every day adds new, fresh, clean merchandise to our list of Special Values. Remember, a general reduction in all our departments prevails, while thousands of yards of Mill-Ends in Gingham, Percales, Sheeting, Bleach and Brown Domestic, Crash, Organdies, Voiles, Pongee, etc., were bought for this special sale.

Remember, school begins this month; these short lengths make ideal dresses and waists for the girls and boys.

It will be wisdom on your part to see this wonderful assortment of special values, and then, better still, for you to lay in a liberal supply. Sale continues throughout the month. Don't let this opportunity slip.

FAIR & Co.
THE FAIR DEALERS

LOCAL DASHES

Mr. Grant Midkiff, of Herbert community, lost a good horse recently.

Dr. Augustus B. Riley was in Owensboro on business Wednesday and Thursday.

Mr. Ira Allen, of Chicago, spent a few days with his family near Hartford, recently.

Miss Emilie Bell, of Buford, left Sunday for Lewisburg, Ky., where she will teach this year.

Mr. Walter Norrington, of Hanthurs, Indiana, spent the Fourth with friends in this city.

Miss Erma Carter, of Chicago, Ill., is the guest of her parents, Mr. and Mrs. A. A. Carter, Hartford R. F. D. No. 1.

HARTFORD SECOND BALL TEAM wants games anywhere in the county. Communicate with JOHN T. KING, Hartford.

Mr. J. R. Addington and little granddaughter, Myrtle West, of Centertown, were pleasant visitors at his office, Monday.

Little Miss Mary Louise Helton, of Sunnysdale, spent Tuesday and Wednesday with her little cousin, Ruby Gordon Westerfield, city.

Mr. and Mrs. Hinton Leach, city, spent the Fourth in Central City, the guests of Mrs. Leach's parents, Mr. and Mrs. J. Caskey Bennett.

Hugh Edward, the three-day-old child of Mr. and Mrs. Golden Shown, of near this city, died July 1st. The body was interred in Beda.

Miss Virginia Lauterwasser, returned home Sunday from Rockport where she had been visiting Miss Annetta Mae Reid, since last Tuesday.

The Ladies' Aid of No Creek Church will give an ice cream supper on the No Creek Church grounds, Saturday, July 15th, beginning at 6:30. The proceeds will go for the benefit of the church.

ROCKPORT boasts of the best team in the county. Don't fail to see this game.

A movement has been started here to organize an Eastern Star Chapter. Are you interested?

Mrs. Mollie Herring, of Beaver Dam, has returned from a visit with relatives at Pleasant Ridge.

Mr. Isaac Foster, who is engaged in architectural work in Central City, spent the week-end with his family here.

Don't fail to see Hartford's Home Run Hitter, Sunday. The best line-up Hartford ever had. Game starts 3 p. m.

On account of increased expenses the admission to the game, Sunday, will be 35c. You'll get your money's worth, COME.

Mrs. Fon Rogers and daughters, Lottie Mae and Ida B., of Lexington, are visiting Mrs. Rogers' sister at the New Commercial Hotel.

Miss Beulah Taylor, who is attending the summer normal here, spent the week-end with her mother, of Beaver Dam, R. F. D. No. 4.

Miss Erma Carter, of Chicago, who is visiting her parents near Concord, was the guest of Miss Kennedy, Collins, of this city, Saturday.

Mr. Chester Leach, city, who underwent an operation in a Kansas City hospital, some time ago, and has since been under treatment there, is reported as doing well. It is not known definitely as to when he will return.

Little Miss Mary Virginia Elgin, R. F. D. No. 2, Montgomery, Ala., who has been the guest of her grandparents, Rev. and Mrs. Virgil Elgin, of Adairville, Ky., for several days, is spending the week with her grandfather, Mr. Cal P. Keown.

Mr. and Mrs. Charles L. Taylor and little son, Charles Leland, Jr., of Danville, Ky., have been the guests of Mr. Taylor's father, Mr. Herschel Taylor, and other relatives at Prentiss during the past week. Young Mr. Taylor is Farm Agent of Boyle County and is making an enviable reputation.

Mr. J. L. Patton, of Ralph, was an appreciated caller, Tuesday.

Mr. Jeff Barnett and daughter, Miss Maud, of Reynolds, were pleasant callers at this office, Tuesday.

Miss Mary Jarnagin, of Cromwell, spent Thursday night with Mr. and Mrs. R. B. Martin, city.

Dr. A. B. Riley announces he is prepared to test eyes and fit glasses in his office over Ohio Co. Drug Co., 27-31.

Mr. Paul Her, of Rockport, left Monday for Macon, Ga., where he will enter the C. A. Struby School of Pharmacy for a three months' course.

Mr. McDowell A. Fogle was the guest of his sister, Mrs. Thomas B. Petrie, and Mr. Petrie, of Indianapolis, Ind., from Wednesday until yesterday.

Mr. and Mrs. Otis Taylor, of Johnson City, Tenn., are guests of Mr. Taylor's father, Mr. Herschel Taylor and other relatives near Prentiss.

The county board of education will meet next Monday in call session to complete the work of electing teachers for the fall term of the rural schools.

The ladies of Liberty church will give an ice cream supper next Saturday night on the church grounds. Meet your friends there and spend a pleasant evening.

Mr. Edward Likens, of Washington, D. C., who has been the guest of relatives here for several days, spent Saturday night and Sunday at Sulphur Springs.

Mr. and Mrs. Jessie Bennett, of Sunnysdale, were in this city on business, Monday. Mrs. Bennett was a pleasant caller at the Herald office while in the city.

Mr. and Mrs. Dennis Walker, of Fordsville, are the delighted parents of an eight and half pound boy, born July 4th. He has been christened Charles Hart.

Misses Mary Marjorie and Eva Jean Crowder, of Central City, spent the week-end with their grandmother, Mrs. Charlotte Brown, at the New Commercial Hotel.

Mrs. J. P. Casebier and son, J. C., have returned from a week-end visit with her parents at Pleasant Ridge and also a short visit with relatives in Owensboro.

Mr. F. C. Bennett, of Hartford, R. F. D. No. 3, was a pleasant caller, Monday. Mr. Bennett has been taking chiropractic treatment in Owensboro for some time.

Judge W. H. Barnes and son, J. Glenn, will leave Saturday for an extensive motor tour through the North, visiting Indianapolis, Pittsburgh and Washington en route.

Mr. Arnold Likens, of this city, left Monday afternoon for Macon, Georgia, where he will take a three months' course in pharmacy at the C. A. Struby School of Pharmacy.

Mrs. J. C. Westerfield, Hartford Route 6, Mrs. Rommie Helton, and little son, Ernie, of Sunnysdale, were guests of Judge and Mrs. J. D. Holbrook, city, Wednesday.

Miss Cora Hagerman has returned to her home in this city after spending a month as the guest of her brother, Mr. J. Leslie Hagerman, and Mrs. Hagerman, in Louisville.

Mr. Martin Schapmire, who was painfully injured by accidentally sticking an ice hook in his thigh on Tuesday of last week, while delivering ice for the Ellis Ice Co., is able to be on the wagon again.

Mr. J. L. Sallee, and little daughter, Dorcas, of East St. Louis, Ill., were guests of Mr. Sallee's mother-in-law, Mrs. R. R. Wedding, and Judge Weddell, from Sunday until Tuesday.

Miss Irene Lee and brother, Master Virgil Lee, of this city, left Saturday to be the guests of their grandmother, Mrs. Eliza Lee, and other relatives on Olton, R. F. D. No. 1.

Misses Mahel, Pauline and Myrtle Ashley accompanied by Messrs. Clarence Waters and Curtis Beggs, motored over from Evansville and spent the Fourth with the parents of the Misses Ashley, Mr. and Mrs. Elmore Ashley, of near this city.

Mr. and Mrs. Clarence Foreman and family, of Reynolds, have been the guests of Mr. Foreman's brother, Mr. Willie Foreman, and family, of Barrett's Ferry during the past few days.

Mr. and Mrs. Charles H. Tichenor, daughter Miss Eloise, and son, Stafford, of Glasgow, Ky., were recent guests of Mrs. Tichenor's father, Judge J. D. Holbrook, and Mrs. Holbrook, city.

I hold a certificate from the State Board of Health to test eyes and fit glasses and will guarantee my work to please you.

J. B. TAPPAN, Optometrist, Hartford, Ky.

Mr. and Mrs. John Cook, of Henderson, have taken rooms in the residence of Mrs. Minnie Wedding, on North City Street. Mr. Cook has been assigned as assistant operator at the local L. & N. depot.

Mr. and Mrs. Coleman Edwin Wilson and children, Floyd and Helen, returned to their home in Mattoon, Ill., Wednesday after a visit with Mr. Wilson's sister, Mrs. Owen Brown, and Mr. Brown, of this city.

Mr. Charles R. Ashby, of Nortonville, who was assigned as operator at the local depot during the absence of Mrs. Berta Pedigo, has recently been assigned to work at the Moorman depot. Mrs. Pedigo is now assigned at Schree, Ky.

Mr. and Mrs. T. O. Lloyd and little daughter, of Shelby, Ohio, arrived the first of the week to spend about two weeks as guests of Mr. Lloyd's father, Mr. T. L. Lloyd, and Mrs. Lloyd, of near Narrows, and Mrs. Lloyd's father, Mr. J. W. Daniel, of Olton, R. F. D. No. 1.

The Ohio County Pension Board has been reorganized and is now composed of Dr. E. B. Pendleton, of this city, Dr. J. A. Duff, of Danjee, and Dr. Oscar Allen, of Cromwell. At a recent meeting at the office of Dr. Pendleton, Dr. Duff was elected president, Dr. Pendleton secretary and Dr. Allen treasurer.

Mr. and Mrs. J. Leslie Hagerman have returned to their home in Louisville, after spending a few days with the former's parents, Mr. and Mrs. J. Y. Hagerman, of Hartford, and the latter's parents, Mr. and Mrs. Harvey Bennett, of near Centertown. Mrs. Bennett accompanied them to Louisville, returning Sunday.

Self Sealing Mason Jars keep the fruit. No mold; no loss. Pints (Hold more than ordinary pints) per doz. \$1.00 Quarts, per doz. \$1.15 Tops (with rubbers) per doz. 30c Come in and let us show them to you. We'll save you money. They'll leave your fruit.

WILLIAMS & TAYLOR.

Among those from this city who spent the Fourth at Sulphur Springs were Mr. and Mrs. Roy Barnhill, Mr. and Mrs. J. B. Tappan, Mr. and Mrs. L. T. Riley, Misses Lella Glenn, Thelma Bennett, Anna Rhea Carson, Martha Tate, Mildred Stevenson and Margaret Williamson, and Messrs. James Glenn, Robert Sydney Walker, Edward Duke, Virgil Crowe, Raymond Felix, Curtis Maples and Powell Tichenor.

Mr. J. A. Caldwell, of near Goshen, captured a carrier pigeon in his horse lot, early Wednesday morning, wearing a band or ring on each leg, one of which bears the inscription, "Notify C. J. Oring, Dallastown, Pennsylvania." Mr. Caldwell wrote to this address and has received a reply stating that 16 pigeons were turned loose in New Orleans, June 28, and that it was expected that they would return to Pennsylvania. This one had evidently become lost.

Prof. W. S. Taylor, Assistant Director of the Teachers' Bureau, of the Pennsylvania Department of Public Instruction, located at Harrisburg, the state capital, was in Ohio County visiting relatives from the 1st to the 5th, inst. inclusive. He spent Saturday night with his grandfather, Mr. W. B. Bender, and family, of this city. From here, Prof. Taylor went to Prentiss, where he was the guest of his father, Mr. Herschel Taylor and family until Wednesday afternoon, when he left for Pennsylvania. Prof. Taylor is very popular here, where he attended school several years ago. He is a graduate of Hartford College, Kentucky State University and the University of Wisconsin. He is making rapid advancement in his chosen field of education and is a son of whom Ohio County is justly proud.

SWIMMERS

"The Old Swimming Hole"

Featuring

CHARLES RAY

will be at

IDEAL THEATER
BEAVER DAM, KY.

Thursday, July 13th,

This is a picture that will appeal to all. Care and worry will be forgotten when Ray turns back the pages of life and becomes the "bare-foot" boy. See him at the big country picnic where he wears "brogans" that hurt his feet. When he tries to recite before his class, and the white mouse in his blouse gives him some anxious moments. When he tries to show the other boys he can smoke and "backer," and the climax where he has to fight like a "son-of-a-gun." Take our advice, you'll like it.

Saturday, July 15th

"DARING" TOM MIX

In that western you've been wanting,

"For Big Stakes"

You have seen every picture Mix has made on our screen. This is his latest and most stirring western—see it new.

High Spots are when "CLEAN UP" Sudden (Tom Mix) and his clever horse break up-house, keeping for a bunch of bandits; his race on his horse with a prairie fire; when he stands off, single handed, 20 men and throws a crooked sheriff into his own jail. Action? You said it.

Monday, July 17th.

CONSTANCE TALMADGE

(The keenest star on the screen)

In that swift moving comedy,

"Good Night Paul"

For those of you who like a good picture, full of clean, wholesome and mirthful comedy, it's a bird—the kind of picture Miss Talmadge is best suited for. Critics and Miss Talmadge both agree this is the best picture she has made. SEE IT! Feeling Blue? Note Time and Place.

BASE BALL

At HARTFORD

Sunday, July 16, 1922

ROCKPORT VS. HARTFORD

Rockport has been taking all comers. Hartford will have the best line-up of the season. Come out and see the fastest game to date.

Admission, 35c.

Game called at 3:00 p. m.

AUCTION SALE!

Saturday, July 15, 1922

Promptly at 3:00 to 5:00 o'clock.

No Sooner! No Later!

Dry Goods, Clothing, Shoes, Hats, &c

These are Short Lengths, Odds and Ends from our regular stock. The thing may be offered that will just suit you. The highest bidder will get each and every piece offered. When we sell goods in the store we have only ONE PRICE. Now you can have these at YOUR OWN PRICE. Store will be closed during auction hours.

Auction at Back Door.

POSITIVELY nothing will be wrapped, taken back, or exchanged. Be sure you are right.

FRANK PARDON
210 W. THIRD ST.
OWENSBORO, KENTUCKY

OHIO COUNTY DIRECTORY
OFFICIAL

CIRCUIT COURT
Convenes first Monday in March, May and July; third Monday in September and fourth Monday in November.

Each term continues 12 judicial days.
Judge—George S. Wilson, Owensboro.

Circuit Attorney—Glover H. Cary, Calhoun.

Clerk—Frank Black.
Master Commissioner—R. H. Ellis.
Trustee—Grey Ford—L. B. Tichenor.

FOUNTAIN COURT
Convenes first Monday in each month.

Judge—H. H. Wedding.
County Atty.—Otto C. Martin.
Clerk—Guy Ramsey.

Sheriff—G. A. Ralph; Deputies: Mack Cook, Iris Renter, George P. Jones.

Jailer—Nathaniel Hudson.

QUARTERLY COURT
Judge—H. H. Wedding.
Convenes first Monday in each month.

FISCAL COURT
Convenes Tuesday after first Monday in January; first Tuesday in April and October, the County Judge presiding.

1st. District—J. P. McCoy, Hartford.

2nd. District—W. C. Knott, Center town.

3rd. District—Q. B. Brown, Simpson.

4th. District—J. H. Murphy, Fordsville.

5th. District—Sam H. Hollbrook, Hartford, R. F. D. No. 4.

6th. District—Mack Martin, Narrows, R. F. D. No. 2.

7th. District—J. Walter Taylor, Beaver Dam, R. F. D. No. 3.

BOARD OF EDUCATION

Superintendent—Mrs. I. S. Mason

Convenes first Monday in every month.—Mrs. I. S. Mason, S. S. O. C., and ex-official Secretary-Treasurer.

R. A. Owen, Chairman, Hartford, R. F. D. No. 6.

W. B. Carson, Vice Chairman, Hartford, R. F. D. No. 3.

Nat. Lindsey, Center town, R. F. D. No. 1.

Otis Steyens, Beaver Dam.

Claud Kenfrow, Dundee.

Examinations

For Common School Diplomas—

Fourth Friday and Saturday in January, and Second Friday and Saturday in May. Held in Fordsville, Beaver Dam and Hartford.

For Teachers' Certificate—Third Friday and Saturday in May, June and September. Except notice is given to the contrary the latter examinations are held in Hartford.

BOARD OF DRAINAGE COMMISSIONERS

S. T. Barnett, Hartford, President;

V. C. Kueker, Beaver Dam, R. F. D. No. 2, and J. A. Bellamy, Whitesville, R. F. D. No. 2.

OTHER OFFICERS

Tax Commissioner—R. F. Keown, Fordsville.

Treasurer—C. O. Hunter.

Surveyor—C. S. Moxley, Fordsville.

Representative—Ira Jones, White Run.

RADIO

INSTRUCTIONS FOR TROUBLE SHOOTING

How to Detect and Remedy the Open Circuit, Short Circuit and Leakage.

Radio circuits are subject to the same ills that the ordinary power circuits are subject to. However, to cure them is not such a difficult task as might be supposed, especially if some logical procedure is used.

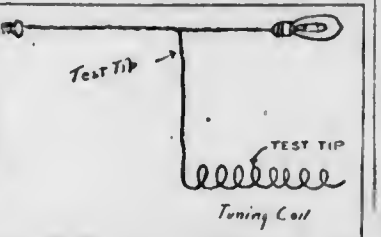

If a receiver is well put together in the first place and all contacts and other parts gone over once in a while, there is no reason why there should be any trouble. But the human being is prone to err, so that for the "once in a while" that is liable to happen, this article will be devoted to the explanation of what might happen to a simple receiver and the best way to fix it.

The usual troubles of the receiver fall under one of the following three headings:

- 1—An open circuit.
- 2—A short circuit.
- 3—Leakage.

An open circuit can most easily be detected by means of a series lamp. Nearly every one has available the ordinary 110 volt lighting circuit. Take an ordinary extension cord and cut one wire at any convenient place and use these two ends as test clips or clips. The extension cord is plugged into the house lighting circuit at any convenient outlet and when the two cut ends are held together the lamp will light as the circuit is closed. When the tips are held open the circuit is "open" and the light will go out.

Suppose it is desired to test for an open circuit in a tuning coil. Connect one tip to one end of the winding and the other test clip to the slider. As the

Testing the Tune Circuit.

slide is moved back and forth the light should remain lighted. If the light goes out at times there is an open circuit in the coil. If the light goes out when the coil is jarred the slider does not make good contact with the winding.

If a buzzer and battery are available they can be used in testing for an open circuit in the same way that the lamp can be used. Connect the battery and buzzer in series with the test clips or tips and any low resistance circuit can be tested.

The ground connections can be tested with a buzzer and battery, but do not use the house-lighting circuit to test for grounds because one side of the lighting circuit is already grounded and if the other side were connected to the ground a short circuit would exist and an excessive current flow.

If the ground wire is connected to the water pipe, connect one test tip to the ground and the other to the gas pipe, which is also grounded. The buzzer should buzz if one has a good low resistance ground.

Leakage usually exists between the antenna and the ground. An antenna should be well insulated from its support. The lead-in should be brought down to the point where it enters the wall of the station in such a manner that when the wind causes it to swing, it cannot touch any grounded material, and that rain and snow cannot cause a path along which the current can ground. In bringing the lead-

To Test Telephone Cords.

In through the wall, insulate it well and inside the station use as short a piece of well-insulated wire as is possible to make good connection with the set.

To test the continuity of the circuit of a pair of telephone receivers, touch the tips of the cord phone to the tongue. If the receivers are in reasonably good condition a slight click will be heard. If the response in one receiver seems to be weaker than that in the other, examine the diaphragm of the receiver giving the weaker response and see if it is bent toward the pole piece. Try tuning the diaphragm over if such is the case. Be careful when the diaphragm of a receiver is removed that the leads of fine wire from the magnet spools to the connection blocks do not become broken in handling.

If the continuity of the circuit of a pair of telephone receivers is checked and no response is heard when the cord tips are touched to the tongue, try checking each receiver of a double head set separately.

The two receivers are connected in

TIPS TO THE RADIOIST

The higher the aerial the stronger the signals. An increase of five to ten feet in the height of the flat top aerial will increase signals.

Addition of a variable condenser to the secondary or to the primary of a loose coupler often helps to tune out the undesired signals.

The sliders on tuning coils often make poor contacts with the slide rod. Thus much of the signal strength is lost. You can overcome this by soldering a flexible wire to the slider.

Increase length of spreaders of two, three or four-wire aerials from six to ten feet for best results. Each wire should be from four to six feet from its neighbor. Two wires one or two feet apart are no better than one wire. Likewise four wires on short spreaders are no better than one wire.

series and to check either one separately, short circuit the tips of the cord leading to the other receiver just outside of the case. Should it appear that there is an open circuit in the cord, short circuit both receivers where the cord enters the case and with a buzzer or lamp connected to the tips on the end of the cord test for an open circuit.

Care should be exercised by the operator when adjusting a crystal detector to see that his fingers do not touch the surface of the crystal or the contact point of the little spring. The oil secretion that exists in the skin together with the dust that it collects will render a crystal detector inoperative by the insulating film that it will cause to form on the portion of the crystal surface that is touched. Should the surface of the crystal get dirty as evidenced by the received signals becoming weaker and weaker, try cleaning the crystal with alcohol and a little brush. Or if this does not seem to remedy the trouble, chip off old surface so that an entirely new surface is presented to the spring.

AMATEURS SHOULD PLAY FAIR

Radio Inspector Schmidt Urges That They Learn the Laws and Regulations.

Nine out of every ten radio fans are good sports, but the tenth is either a fan with poor judgment or a "rotter." It is up to the amateurs to see that restrictions are not imposed upon them, by playing fair, says Radio Inspector L. R. Schmidt of the Ninth district.

This can be done by observing certain cautions and by becoming posted on the radio laws and regulations. A copy of these regulations may be obtained from the superintendent of documents, government printing office, Washington, D. C., for 15 cents. It is worth while to spend 15 cents in order to be a "square shooter" in the radio game.

The great trouble with amateurs is that when they want to send a message around a corner they put on all the power they have with the hope that some one in Texas might pick up their message. The object should be to use the minimum amount of power to get the message to its destination. "In all circumstances, except in case of signals or radiograms relating to vessels in distress, all stations shall use the minimum amount of energy necessary to carry out any communication desired."

Amateurs should keep their wave length to 200 meters.

They should use a "pure wave" or, as the regulations state, "If the sending apparatus is of such a character that the energy is radiated in two or more wave lengths, more or less sharply defined, as indicated by a sensitive wave meter, the energy in no one of the lesser waves shall exceed 10 per centum of that in the greater."

The wave must be "sharp." As to this the regulations state: "At all stations the logarithmic decrement per complete oscillation in the wave trains emitted by the transmitter shall not exceed two-tenths when sending distress signals or signals and messages relating thereto."

Amateurs frequently are at fault in calling stations too often. The law states that they can call three times, send "d e" once and sign their station call three times; but often the amateurs will send the calls a dozen or more times.

HOW TO GROUND AN AERIAL

If Properly Done It Really Protects the Property From Lightning.

Generally speaking, aerials do not attract lightning, but they do store up atmospheric electricity, and, of course, this condition does create a hazard. However, when the aerial is properly grounded it then acts as a lightning rod and really protects the property from this electrical hazard.

Usually, the fire underwriters require that the aerial be grounded when not in use by a copper wire no smaller than R. S. Gauge No. 4 or larger, and run said wire as directly as possible to the outside ground.

This means that water, gas or steam pipes inside the property cannot be used for a lightning ground, because if ever this ground was called into service there is a possibility that fire and loss of life may result. So do not use inside grounds for lightning protection.

WOMAN STUNG TO

DEATH BY BEES

Cairo, Ill., July 5.—Miss Missouri Durham, 65, died today of excitement and injuries suffered when she was attacked by a swarm of bees, which had been stirred up by a cow kicking over the bee hive.

STEEL PLANT, IDLE 18

MONTHS, OPENS WITH 700

Youngstown, O., July 5. The Bessemer plant of the Republic Iron & Steel Company, resumed full operations this morning after a shutdown of eighteen months. About 700 men will be affected.

BURDENS LIFTED

From Hartford Backs—Relief Proved By Lapse of Time

Backache is a heavy burden; Nervousness, dizziness, headache, Rheumatic pain; urinary ills; All wear one out. Often effects of kidney weakness. No use to cure the symptoms, Relief is but temporary if the cause remains.

If it's the kidneys, cure the cause. Doan's Kidney Pills are for kidney ills;

Read about your neighbor's ease. Ask your neighbor?

Here's Hartford testimony.

The kind that can be investigated.

Mrs. W. T. Woodward, Clay St., says: "I have a good opinion of

Doan's Kidney Pills and am glad to praise them because they helped me when I was troubled with my back and kidneys. I am pleased to say a word of praise for Doan's."

(Statement given November 15, 1916.)

On January 25, 1921, Mrs. Woodward added: "I haven't had to take Doan's Kidney Pills since I endorsed them in 1916, as they have cured me of kidney complaint. I am always glad to tell others what Doan's have done for me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Woodward had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

—(Advertisement.)

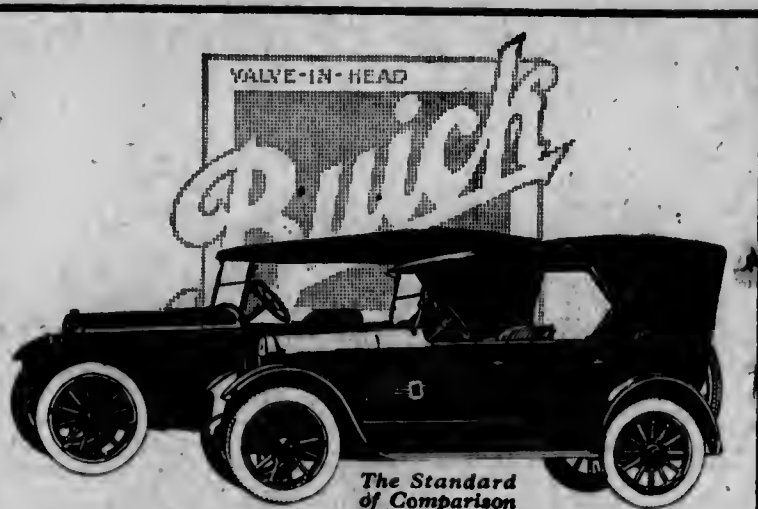

Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and the tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surface. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists, Too.

WANTED—Men or Women to take orders among friends and neighbors for the genuine guaranteed hosiery, full line for men women and children. Eliminates darning. We pay 75c an hour spare time, or \$36.00 a week for full time. Experience unnecessary. Write International Stocking Mills, Norristown, Pa. 19-104

The Standard of Comparison

Both are Buick

One has Four Cylinders—the other has Six

The Buick nameplate on the radiator of a car is the mark of merit. Whether the car has four cylinders or six is of secondary importance. The vital fact is that it's a Buick.

The new Buick Four is the ideal automobile for the motorist requiring a light economical car, yet having all the speed, power and sturdiness of larger and costlier cars.

The Buick Six, perfectly appointed, with all the flexibility and smoothness of the six cylinder car at its best, has earned its position among motor cars as the Standard of Comparison.

Choosing between the Four and the Six is simply a matter of size and price. Both are Buick.

JOHN B. LEWIS ON TAX COMMISSION

Governor Names Louisville Man
To Succeed Scott, Whose
Term Expires.

Frankfort, Ky., July 5.—John B. Lewis, 48, of Louisville, today was appointed a member of the State tax commission by Governor Morrow. He succeeds James A. Scott, of Pikeville, whose term expired on July 1.

Mr. Lewis moved to Jefferson county about five years ago. He was for fifteen years president of the First National bank of Harlan, retiring at the time he moved to Jefferson county. He was county judge of Harlan county for a time. He is a Republican.

Mr. Lewis is a prominent member of the Jefferson County Farm bureau. He lived on the old Douglas place.

James A. Scott, whom Mr. Lewis succeeds, has returned to his home in Pikeville, where he will engage in business. Mr. Scott has been a member of the commission since its formation in 1917. He was appointed to the post by Governor A. O. Stanley, and was reappointed by Governor Morrow, in 1920.

The commission is now composed of Rainey T. Wells, chairman, Democrat; Lem R. Davis, and Mr. Lewis, Republicans. The commission elects its own chairman.

INTERFERENCE WITH MAILS BY STRIKING RAILWAY MEN REPORTED TO WASHINGTON

Washington, July 5.—Interference with the United States mails by the striking railway workers in different parts of the country were reported today to the office of the superintendent of railway mail service.

The reports came from Marshall, Texas; St. Louis, Missouri; Chaffee, Missouri; Kansas City, Missouri, and DeQuincy, Louisiana.

Officials of the Texas and Pacific lines at Marshall reported that their trains and trains on other roads in the same territory were being materially delayed as a result of interference by strikers and their friends, who, it was alleged, were tampering with the air appliances and otherwise preventing proper movement of trains.

Officials of the St. Louis, San Francisco Railway company, at St. Louis, Mo., notified Washington that protection was needed for the preservation and operation of trains used in handling mail matter. They requested that some action be taken by the government at once. "Serious trouble" was reported from Chaffee, Mo.

The Kansas City Southern Railway company reported from Kansas City, Mo., that the strike situation was growing more serious and that at DeQuincy, La., strikers had warned officials in charge of mail trains, not to attempt to transfer mail matter during the night.

The postoffice department, it was said, would dispatch inspectors to all points where trouble might arise in the transmission of the mails.

There is a disposition on the part of the administration, it was understood, to deal with strikers or any others who may interfere with the proper dispatch of the mails in the most vigorous manner. Under no circumstances, will the government tolerate any hindrance to the movement of the mails.

PASSENGER TRAIN

IN BAD SMASH

Chicago, July 6.—Seventy-five persons were injured, only one seriously, when a Chicago-bound Pere Marquette passenger train crashed into a New York Central engine on a siding near Porter, Ind., last night. The train proceeded to Chicago this morning after the injured received first aid.

Officials of both railroads began an investigation immediately.

The negro chef on the dining car was badly scalded and was taken to a hospital at Michigan City, Ind. He was the only person reported to have been seriously injured.

The collision occurred only a short distance from the scene of the collision between New York Central and Michigan Central trains last year when 37 persons were killed.

The train was made up of three Pullmans, a diner and several coaches. According to reports, the New York Central engine was standing on a siding when the Pere Marquette plunged into it through a presum-

ably open or defective switch, according to railroad officials.

TRAIN DERAILED

Hillshoro, Ala., July 6.—East

bound Memphis special fast Passenger train on the Southern Railway, was derailed this morning, two miles east of this place. No one was injured. It is reported that

four coaches left the rails and that the track was torn up for 200 yards.

Encouraging reports on the Hes-
sian fly situation are received by the

United States Department of Agriculture from Indiana, Illinois, Missouri, and California. Central Tennessee alone of the States reporting seems to be seriously infested.

To Users Of Gasoline and Motor Oils

You've too much at stake in your motor equipment to be "spoofed" by mere claims about this or that thing in a gasoline or motor oil.

High-sounding technical terms don't insure you all the pep, power, mileage, safety and satisfaction you are entitled to in a motor fuel or lubricant.

But the word "Standard" does. And that's why it is the buy-word and the stand-by of the biggest users of gasoline and oils everywhere.

You can't "spoof" the big users. They know the dependability of the Standard Oil products and the responsibility of the Company back of them.

They know that if there were a better gasoline than New Crown or a better motor oil than Polarine, the Standard Oil Company would have it for them.

But "there aint no sich animal," no matter who says there is.

So good, so uniform, so dependable and so economical is New Crown

Gasoline that it is universally called "The Perfect Motor Fuel." It's even better than the requirements specified by the U. S. Government.

New Crown is made right here in Kentucky by a Kentucky firm, the Standard Oil Company (Kentucky) in its own refinery at Louisville, from which you get it fresh at all times---a firm that for 36 years has been a vital part of the business activities of the state of Kentucky and the economical life of its people.

Don't be "Spoofed"—Buy the "Always Reliable"

Standard Oil Products---New Crown Gasoline, Polarine Oils and Greases, back of which is a responsibility that is your guarantee of maximum pep, power, safety and satisfaction. And buy them from these, your own home dealers:

"The Perfect Motor Fuel"

Christ, the Firstfruits

By REV. JOHN C. PAGE
Teacher of Bible Doctrine, Moody Bible Institute, Chicago.

TEXT—Now is Christ risen from the dead and become the firstfruits of them that shall be.—1 Cor. 15:20.

The Bible is a book of facts out of which issue great spiritual truths.

These truths have been formulated into doctrines. To "the natural man," these doctrines are like the dry bones of Ezekiel's vision—very many and very dry. To the regenerated man they are like the other part of that vision—when the

bones had been gathered together, clothed upon from heaven; vitalized and made to stand upon their feet, an army ready for battle.

You are a Christian believer, because of that which minimizes the importance of Christian doctrine. The value of Christian truth and doctrine lies in its ability to supply spiritual power, to furnish moral incentive and to impart mental vision and understanding. This very truth of Christ risen from the dead, the firstfruits of them that slept, is an example of this. When believed and received it operates in a saving way: "If thou shalt confess with thy mouth the Lord Jesus Christ, and shalt believe in thine heart that God hath raised Him from the dead, thou shalt be saved."

Salvation Comprehensive. Salvation is a big word, and comprehends the whole process of God's remedial work, past, present and future. It includes the resurrection of Christ as the firstfruits and the resurrection of believers in Christ as the harvest. The firstfruits is the pattern and pledge of the coming harvest. In the Mosaic law the Hebrew people were directed to bring a sheaf of the firstfruits of wheat to the Lord as the first sheaf of the harvest. So is Christ presented as the firstfruits of the glorious and glorious harvest to come—"Because I live, ye shall live also." There is spiritual power in this. What is true of our Lord is true of every believer in Him. Everything is made dependent on the believer's position as united to Christ. This underlies the whole philosophy of the Gospel message, in which we are invited to change our position from headship in Adam to headship in Christ, who through His atonement for sin and His victory over death and the grave, has become Savior to all who put their trust in Him.

The doctrine of our identity with Christ and our participation in His life and victory supplies moral incentive for a holy walk, and for sacrificial service. This very truth of the bodily resurrection of Christ and of the resurrection of Christian believers when He returns, is the ground of the appeal in 1 Cor. 15:58—"Therefore be ye steadfast, unmovable, always abounding in the work of the Lord, forasmuch as ye know that your labor is not in vain in the Lord."

The Apostle John used the same basis of appeal and finds moral incentive in the same facts—"Beloved, now are the sons of God, and it doth not yet appear what we shall be, but we know that when He shall appear we shall be like Him, for we shall see Him as He is. And every man that hath this hope in him purifieth himself, even as He is pure."

These great doctrines concerning the future blessings of Christian believers are never presented as abstract truths or for mere academic discussion, but as vitalizing truths supplying the necessary incentive for the conflict with evil within and without.

Worldly Philosophy Inadequate. Such a truth as this concerning our Lord's resurrection as the firstfruits of a great harvest, to follow imparts clear mental vision and understanding concerning the future. It reveals the future from that dreary uncertainty and unthinkableness into which false philosophy and false spiritualism have put it. The New Testament teaching of the resurrection is plain, and when believed it saves us from the delusive teaching against which the Holy Spirit through the inspired writers always puts Christians on their guard. "Beware, lest any man spoil you through philosophy and vain deceit, after the tradition of men, after the rudiments of the world, and not after Christ." This philosophy may be very attractive; it is to the natural mind. It has in it a speciousness and an appearance which promise much, but which in the end give no rest, no power for a holy life and no solid hope for the future. It belongs to the rudiments of the world and is not after Christ.

The religion of the New Testament is plain and homely. It begins with a babe in a cradle. It follows that way all the way through death and resurrection to the place of power where the crucified and risen Man is seated on the right hand of God. It is as simple as the risen Lord and look become like Him, risen in His very body in a glorified body when He came. From the heavens He calls—Believe in Me, live in Me, and I shall arise in Me when I return.

JOHN SHELL, DIES AT AGE OF 134

Lexington, Ky., July 9.—"Uncle John" Shell, "the oldest man in the world," who said he was 134 years old died last week at his home near Hyden, Leslie County, and was buried with two of his sons, William Shell, 90, and Albert Shell, 7, as mourners at his grave, according to reports received here tonight.

"Uncle John," it was said, retained his faculties up to the last, and discussed the funeral arrangements with his relatives while he was dying. He had always maintained that he was born in Tennessee in 1788, the son of Samuel Shell, a gun maker, and that he had lived in the little cabin on Greasy Creek, in which he died, for more than 100 years.

Up until the time he was "discovered" about four years ago, "Uncle John" had led a secluded life in the mountain country, but since then he had traveled considerably.

Mrs. Lida Miller, of near Beaver Dam, was the victim of a most painful accident Monday when, in the process of hanging out clothes, she lost her balance and fell, breaking a bone in each forearm. She was given prompt medical attention and is getting along as well as could be expected.

Mrs. Nettie M. Reid, of Rockport, and daughters, Mrs. Cozie M. Dupuy, of Rockport, and Mrs. P. O. McKinney, and son, Oliver James, of Oakmont, Pa., will arrive in Hartford Thursday or Friday, to spend a week or ten days with Mrs. Reid's sister, Mrs. R. H. Gillespie and family, and other relatives.

SAYS ANIMALS DO REMEMBER

Why Old Idea Is Wrong Is Proved by Incidents Related by English Writer.

I have read an article in which a trapper denies that animals have a real memory, says a writer in the London Times. He admitted that most of them knew enough to avoid a trap after an experience or two with it, but contended that this was merely a manifestation of the self-preservation instinct.

The same man cited an instance—not at all unfamiliar—of a dog's refusing to hunt with a man who had kicked him. He said that this too was only the instinct of all living creatures to avoid injury.

Animals do have memory—at least some of them do. The trapper's theory would not explain those many evidences of recollection wherein self-preservation plays no part. I once carried a fox-terrier into the house after he had been well-nigh killed by an automobile. His master had just moved into the apartment house, and I had never seen the dog before that day. We moved away two days later, and I did not see the terrier for over four months. Then one day I passed the house—or was about to do so—when out came that dog, wagging his stubby tail. He jumped all over me, in joyful recognition—and memory.

An amusing story, significant on this subject, is told by my father. As a boy he lived on a farm, and was always a close student of animal nature. The mare he usually drove was old and fat, and would never go faster than a walk unless urged. There were two roads to town, one branching off from the other and a little shorter. It had been Old Man's custom to take this road, of her own volition, until on one occasion a vicious dog barked at her and snapped at her legs. After that the driver had to be on his guard; Mand would speed up when about 50 yards from the turn-off and try to get by it before she could be restrained. This showed not only memory, but a sense for planning.

Why Mirrors Become Clouded. "These wintry and rainy days are sure tough for me," said the elevator man in an office building. "How's that?" asked the casual passenger.

"Look at those mirrors on each side of the car," directed the elevator man. "I have to wipe them off about every five minutes. On cold days the female nose gets red, and on rainy days—well, the rain washes the powder off their noses. What's the result? Every carload I take up crowds over near these mirrors, takes out the old powder puff and starts dollyin'. There's a bunch of them, you see, and by the time I reach the top floor the mirrors are so clouded with powder they don't reflect a thing."

"Except possibly feminine vanity," observed the casual passenger.

Why Malamute Dogs Are Scarce. Malamute dogs, the half-wolf, half-canine animals known as huskies, are selling in the North at \$100 apiece and up, according to returned hunters and prospectors. When the North is snow-bound and lakes and rivers are locked with ice against navigation, travel is almost exclusively by dog sled. The lowest price at which dogs can be obtained is \$100 each, according to advice. First-class animals, such as crack "mushers" pride themselves on keeping, are hard to get at any price, and when "bluebirds" cost several hundred dollars, or as much as a good horse in the South. Scarcity of dogs, it is said, is due to the neglect of breeding stock by the Indians.

Nothing But High Quality for Spring Hart Schaffner & Marx Clothes

You may have the idea that the price of a Suit or Overcoat is the thing you are most interested in this spring; you may come to us and say so. We know you better than that.

What you're really interested in is the quality of the clothes; the materials, making, style. We know you want the best quality; you want it priced as low as possible, naturally. But don't let yourself be fooled by price.

Hart Schaffner & Marx clothes are here to satisfy the man who knows that good clothes are the only thing that really pays him. We've priced our suits and overcoats at very low figures for quality.

OWENSBORO, Where Courtesy Reigns. KENTUCKY

PRENTISS

July 6.—Miss — White, of near Bowling Green, has been visiting Miss Lillian Choran.

Misses Pearl and Jessie Nourse, of Central City, and Miss Ethel Morton, of Livermore, returned home last Saturday, after a visit with relatives near here.

Miss Lettie Kuykendall, of Centertown, and Miss Eva Morton and M. W. Underwood, of Livermore, spent last Sunday week with Mr. and Mrs. Albert Patterson.

Mr. Charlie Taylor and family, of Danyville, Ky., and Mr. and Mrs. Otis Taylor, of Johnson City, Tenn., are visiting their father, Mr. H. B. Taylor, and other relatives near here.

Mrs. — Penley and children, of Provo, Ky., visited her father, Mr. Morgan Pendley, and Mrs. Pendley, recently.

Mr. Kennett Swain, of Owensboro, visited relatives here last week. Miss Virginia Stevens visited her

uncle, Mr. Lon Stevens, and Mrs. Stevens, recently.

Messrs. Wm. and Allen French motored to Centertown, last Sunday.

Mr. Joe Rogers, of Echols, visited relatives near here, last week.

Mr. Wm. Taylor, of Penn., spent a few days with relatives near here, this week.

EASTVIEW

July 10.—A heavy rain fell at this place Friday evening, accompanied by a heavy wind-storm.

Messrs. B. J. and W. T. French were in Hartford, Tuesday.

Mr. A. T. French was in Owensboro, Wednesday for medical treatment.

Mr. Albert Stewart and family were the guests of Mr. and Mrs. Luther Collins, of Centertown, Saturday and Sunday.

Mrs. Effie Martin spent Sunday with relatives at Maxwell. Mr. L. D. French spent Saturday

and Sunday with Mr. and Mrs. Luther Collins, of Centertown.

Mr. Harland Wiggington and family spent Saturday night and Sunday with relatives at Maxwell.

Mr. Charley Hoover and family spent Sunday at Central City with friends.

Mrs. Veora French spent Wednesday with relatives at Pleasant Ridge.

26 COUNTIES HAVE NOT MADE RETURNS

Frankfort, Ky., July 6.—Twenty-six of the 120 counties in Kentucky either have not sent in their tax returns for the year or have failed to meet increases ordered by the state tax commission, it was announced at the office of the commission here today. Recapitulations from eleven others have not been approved pending the outcome of appeals from the assessments made by the tax supervisors.

FREAK POTATO

Mr. Lewis Easterday, of the No Creek vicinity, left with us last week a freak Irish potato, which he found in his patch recently. The potato grew in the handle of a door latch which had become imbedded in the ground, and had made such efforts to free itself that it had broken the latch. The potato still surrounded by the piece of metal is now on display at this office. The managing editor is indebted to Mr. Easterday for a half dozen large and very white potatoes, which grew in the patch with the one mentioned above.

REPRESENTATIVE KINKAID DIES IN WASHINGTON

Washington, July 6.—M. P. Kinkaid, member of the house of representatives from the Sixth Nebraska district, died here today. He had been ill of a complication of diseases since early in May.
